Luciteria Collector Cabinet - Navigation Architecture

Navigation Hierarchy & Authentication Requirements

Authentication Matrix

Route Pattern	Auth Required	Role Required	Notes
/auth/*	✗ No	None	Public authentication flows
/collection	✓ Yes	Customer	Primary dashboard
/progress	✓ Yes	Customer	Milestones & achievements
/shop	✓ Yes	Customer	Browse missing items
/membership	✓ Yes	Customer	Subscription management
/profile	✓ Yes	Customer	User settings & preferences
/notifications	✓ Yes	Customer	Notification center (NEW)
/wishlist/:sku	✓ Yes	Customer	Context-aware wish-list detail (NEW)
/element-notes/:sku	✓ Yes	Customer	Drawer overlay (NEW)
/admin/**	✓ Yes	Admin	All admin routes

Phase 1 Routes (Existing)

1 /collection - Collection Dashboard

Primary interface showing periodic table and collection status

/collection

- └─ **Default View:** Interactive Periodic **Table**
- └─ **Filter by:** Form (10mm, 25.4mm, 50mm, Cubes, Ampoules)
- └─ **State indicators:** Owned, Missing, Wishlisted
- └─ Click item └─ **Element** Detail Modal
- └─ Collection Stats Widget
 - └─ Total **Owned:** X/118
 - └─ **Primary Pattern:** [detected]
 - └─ Active **Goals:** N
- └─ Quick Actions
 - └─ "Add to Wishlist" (**from** periodic **table**)
 - └─ "Shop Missing Items" └─ /shop

TRIGGERS:

- Click **element** card └─ Opens **element** detail modal **with** "Add Notes" button
- "Add Notes" button └─ Opens /**element**-notes/:sku drawer (Phase 2)

2 /progress - Milestones & Achievements

Progress tracking and milestone visualization

/progress

- └─ Milestone Progress Cards
 - └─ First Element
 - └─ 10 Elements
 - └─ First Complete Row
 - └─ First Complete Group
 - └─ 50 Elements
 - └─ Complete Periodic Table (118)
- └─ Collection Path Analysis
 - └─ Detected Primary Pattern: [Family + Form + Size]
 - └─ Completion %: XX%
 - └─ **Next** Recommended Items
- └─ Achievement History
 - └─ Unlocked milestones with dates

3 /shop - Browse Missing Items

Shop integration showing collection-aware product feed

```

/shop
├── Filter Controls
│   ├── Show: All / Missing Only / Wishlisted
│   ├── Form Filter: All / Cubes / Ampoules / etc.
│   └── Family Filter: Alkali Metals / Noble Gases / etc.
├── Product Grid
│   └── Each Card Shows:
│       ├── Element name + symbol
│       ├── SKU and form
│       ├── Price
│       ├── Stock status
│       ├── "Owned" / "Missing" badge
│       ├── "Add to Cart" (in stock)
│       ├── "Join Waitlist" (out of stock) → Phase 2
│       └── "Add to Wishlist" button
└── Sort Controls
    └── By: Relevance / Price / Atomic Number

```

4 /membership - Subscription Management

Cube of the Month subscription and billing

```

/membership
├── Subscription Status Card
│   ├── Active / Paused / Cancelled
│   ├── Next shipment: [Element Name] on [Date]
│   ├── Billing: $XX.XX on [Day of Month]
│   └── Grandfathered Price: $YY.YY (if applicable)
├── Shipment History
│   └── Past deliveries with tracking
├── Assignment Preview
│   ├── Next 3 shipments (auto-assigned)
│   └── "These avoid duplicates based on your collection"
└── Actions
    ├── Pause Subscription
    ├── Update Payment Method
    └── Change Preferred Form (if multi-format)

```

5 /profile - User Settings

Account settings and preferences

```

/profile
├── Account Information
│   ├── Name, Email
│   └── Password Change
├── Collection Preferences
│   ├── Primary Format: [10mm / 25.4mm / 50mm / Cubes / Ampoules]
│   └── Display Preferences
├── NEW Notification Preferences (Phase 2)
│   ├── Notification Types (5 toggles)
│   │   ├── ☒ Completion Unlock Alerts
│   │   ├── ☒ Near-Completion Urgency
│   │   ├── ☒ Wishlist Restock Alerts
│   │   ├── ☒ High-Relevance Restock
│   │   └── ☒ Milestone Proximity
│   ├── Frequency Limit: Max per week [1-2 slider]
│   └── Delivery Method: In-App, Email, Both
└── Data Export
    ├── Export Collection (CSV/JSON)
    └── NEW Export Element Notes (Phase 2)

```

NEW Phase 2 New Customer Routes

6 /notifications - Notification Center

Centralized notification inbox with context-aware alerts

```

/notifications
├── Header
│   ├── "Notifications" title
│   ├── Unread count badge
│   └── "Mark All Read" button
├── Filter Tabs
│   ├── All (default)
│   ├── Completion Unlock
│   ├── Near-Completion
│   ├── Wishlist Restock
│   ├── High-Relevance
│   └── Milestone Proximity
├── Notification List
│   └── Each Notification Card:
│       ├── Type icon + color badge
│       ├── Title (e.g., "Your Alkali Metal Cube Set is Complete!")
│       ├── Context message with SKU/set name
│       ├── Timestamp
│       ├── Read/Unread indicator
│       ├── Primary CTA button → /shop?sku=XXX
│       └── Secondary action: "Dismiss" / "Add to Wishlist"
└── Empty State
    └── "No notifications yet. We'll alert you when items you need restock."

```

MOBILE BEHAVIOR:

- Bell icon in top nav shows unread count
- Tapping opens full-screen notification center
- Swipe-to-dismiss on mobile

7 /element-notes/:sku - Element Notes Drawer

Overlay drawer for private collector notes on owned items

/element-notes/:sku (Drawer Overlay)

- ☐ Accessed From:
 - ☐ Collection dashboard element card ☐ "View/Add Notes"
 - ☐ Progress page ☐ Owned items
- ☐ Drawer Slides In (Right Side)
 - ☐ Header
 - ☐ Element name + symbol (e.g., "Gold (Au)")
 - ☐ SKU display
 - ☐ "🔒 Private - Only You See This"
 - ☐ Close button ☒
 - ☐ Form Fields (7 total)
 - ☐  Acquisition Date (date picker)
 - ☐  Acquired From (text input)
 - ☐  Purchase Price (currency input, optional)
 - ☐  Condition Notes (textarea)
 - ☐  Display Location (text input)
 - ☐  Personal Notes (large textarea)
 - ☐  Photos (upload zone, 1-3 slots)
 - ☐ Auto-Populated Hint
 - ☐ "✨ Acquisition date auto-filled from order history"
 - ☐ Footer Actions
 - ☐ [Cancel] button
 - ☐ [Save Notes] button (primary)
- ☐ On Save:
 - ☐ Success toast: "Notes saved for [Element Name]"
 - ☐ Returns to collection view with note indicator visible

NAVIGATION:

- Not a separate route, renders as drawer overlay
- URL updates to /collection?notes=:sku **for** deep linking
- Back button closes drawer

8 /wishlist - Enhanced Wishlist with Context Filtering

Context-aware wishlist with intelligent labeling

/wishlist

- ☐ Header
 - ☐ "My Wishlist" title
 - ☐ Total count: "X items"
 - ☐ "Export List" button
- ☐ Filter Controls
 - ☐ Context Labels:
 - ☐ All (**default**, shows count)
 - ☐  Core (matches primary pattern)
 - ☐  Exploration (different form/family)
 - ☐  Aspirational (premium/larger size)
 - ☐  Upgrade Target (better version of owned)
 - ☐ Sort By:
 - ☐ Date Added (newest first)
 - ☐ Priority (high ☐ low)
 - ☐ Availability (**in** stock first)
 - ☐ View Toggle: [Grid] / [List]
- ☐ Wishlist Item Cards
 - ☐ Each Card:
 - ☐ Element image
 - ☐ Element name + SKU
 - ☐ Context badge (colored label)
 - ☐ Stock status indicator
 - ☐  In Stock
 - ☐  Low Stock (urgency!)
 - ☐  Out of Stock
 - ☐ Price
 - ☐ Date added timestamp
 - ☐ Primary CTA:
 - ☐ "Add to Cart" (**if in** stock)
 - ☐ "Join Waitlist" (**if out** of stock)
 - ☐ Secondary actions:
 - ☐ Edit context label
 - ☐ Enable stock alert
 - ☐ Remove from wishlist
- ☐ Click Item ☐ Opens Detail View
 - ☐ Wishlist Item Detail Modal:
 - ☐ Full product details
 - ☐ Current context label (with edit button)
 - ☐ "Why this label?" explanation
 - ☐ e.g., "Auto-labeled Aspirational because this is a 50mm cube and your primary pattern is 10mm"
 - ☐ Collection fit analysis
 - ☐ Stock alert toggle
 - ☐ [Remove from Wishlist] button
- ☐ Empty State
 - ☐ "No items in wishlist. Browse the shop to add items!"

ADDING TO WISHLIST:

When user adds **out**-of-pattern item from /shop or /collection:

- ☐ Context Label Prompt (Modal)
 - ☐ "Why are you interested in this item?"
 - ☐ Radio Options:

- ☐ ☐ ☐ ☒ Core Collection (fits my main pattern)
- ☐ ☐ ☐ ☒ Exploration (trying new form/family)
- ☐ ☐ ☐ ☒ Aspirational (premium/upgrade)
- ☐ ☐ ☐ ☒ Upgrade Target (replace existing)
- ☐ ☐ ☐ ☐ Auto-Detection Hint:
 - ☐ ☐ "🌟 We think this is: Aspirational"
 - ☐ ☐ "Based on: Higher price tier than your pattern"
- ☐ ☐ ☐ ☐ [Cancel] / [Add to Wishlist] buttons
- ☐ ☐ ☐ ☐ On Confirm:
 - ☐ ☐ Item added with selected/**auto**-detected label
 - ☐ ☐ Toast: "Added to wishlist as [Context Type]"

Phase 2 Admin Routes

/admin - Admin Command Center

Dashboard overview with quick access to all panels

/admin (Requires Admin Role)

- ☐ ☐ Dashboard Overview
 - ☐ ☐ Quick Stats Cards
 - ☐ ☐ Total SKUs Mapped: XXX/1654
 - ☐ ☐ Active Collection Sets: N
 - ☐ ☐ Pending Notifications: N
 - ☐ ☐ Critical Sync Issues: N ( Alert **if** >0)
 - ☐ ☐ Quick Access Panel Grid
 - ☐ ☐ [SKU Mapping]  /admin/sku-mapping
 - ☐ ☐ [Collection Sets]  /admin/collection-sets
 - ☐ ☐ [Demand Signals]  /admin/demand-signals
 - ☐ ☐ [Back-**in**-Stock Control]  /admin/restock-control
 - ☐ ☐ [Sync & Integrity]  /admin/sync-integrity
 - ☐ ☐ [Collector Insights]  /admin/insights
- ☐ ☐ Critical Alerts Banner (Top of Page)
 - ☐ ☐ Shows sync issues, unmatched SKUs, price violations (**auto**-loaded)

Admin Sub-Routes (6 Panels)

/admin/sku-mapping - SKU ↔ Collection Mapping Panel

Purpose: Map every SKU to element, family, form, size, **and** collection sets

Access: Admin only

Navigation: Admin sidebar  "SKU Mapping"

Features:

- ☐ ☐ Bulk import/**export** tools
- ☐ ☐ Inline editing
- ☐ ☐ Filter by: Element, Family, Form, Size, Set Membership
- ☐ ☐ Search by SKU **or** element name
- ☐ ☐ "Create New Set" button  /admin/collection-sets/new

`/admin/collection-sets` - Collection Set Builder

Purpose: Create and manage named collection sets (e.g., "10mm Alkali Cubes")

Access: Admin only

Navigation: Admin sidebar → "Collection Sets"

Routes:

- └ /admin/collection-sets (list view)
- └ /admin/collection-sets/new (create form)
- └ /admin/collection-sets/:id/edit (edit form)

Features:

- └ Set name, description
- └ Completion rule: STRICT / FLEXIBLE / THRESHOLD
- └ Required SKUs list (drag-drop interface)
- └ Optional SKUs list
- └ Nested set support (parent set selector)
- └ Threshold percentage (for flexible rules)
- └ Active/Inactive toggle

`/admin/demand-signals` - Demand Signals Dashboard

Purpose: Answer "What is the most painful missing item right now?"

Access: Admin only

Navigation: Admin sidebar → "Demand Signals"

Features:

- └ Hero Widget: "Most Painful Missing Item" (top result)
- └ Table Columns:
 - └ SKU
 - └ Element Name
 - └ Wishlist Count (🔥 high demand indicator)
 - └ Missing Count (collectors who need it)
 - └ Blocks N Near-Completions (critical metric)
 - └ Stock Status (In Stock / Out of Stock)
 - └ Priority Score (calculated)
- └ Sort controls (by any column)
- └ Date range filter
- └ Export button (CSV/JSON)

/admin/restock-control - Back-in-Stock Trigger Control

Purpose: Manually trigger restock notifications with priority control

Access: Admin only

Navigation: Admin sidebar  "Back-in-Stock Control"

Features:

-  Per-SKU Table:
 -  SKU + Element Name
 -  Waitlist Size
 -  Wanted Count (active collectors who need it)
 -  Missing Count (total collectors missing it)
 -  Notification Queue Status
 -  [Trigger Notification] button
-  Notification History Log
 -  Shows recent notifications sent with timestamps
-  Priority Queue Management
 -  Reorder notification queue by urgency
-  Batch Actions
 -  "Trigger All High Priority"
 -  "Preview Notification Recipients"

/admin/sync-integrity - Sync & Data Integrity Panel

Purpose: Monitor Squarespace  eBay sync **and** surface critical issues

Access: Admin only

Navigation: Admin sidebar  "Sync & Integrity"

 **CRITICAL:** This panel loads alerts on admin dashboard **load** (visible immediately)

Features:

-  Critical Issues Alert Banner (Top)
 -  Shows count of: Unmatched SKUs, Price Violations, Stock Mismatches
-  Unmatched SKUs Table
 -  Squarespace-Only SKUs (**not** on eBay)
 -  eBay-Only SKUs (**not** on Squarespace)
 -  Action: "Mark as Retired" / "Merge with..."
-  Price Delta Violations Table
 -  SKU + Element Name
 -  Squarespace Price
 -  eBay Price
 -  Delta Amount
 -  Status Badge:
 -   Too Low (<\$5 delta)
 -   Too High (>\$7 delta)
 -   OK (\$5-\$7 **range**)
 -   Missing Data
 -  Last Sync Timestamp
-  Stock Sync Alerts Table
 -  SKUs with stock mismatches between platforms
 -  Recommended action
-  Auto-Refresh Indicator (updates every 5 **min**)
-  [Export Issues Report] button

/admin/insights - Collector Insights (Analytics)

Purpose: High-**signal** analytics on collection behavior **and** completion patterns

Access: Admin only

Navigation: Admin sidebar  "Collector Insights"

Features:

-  Key Metrics Cards (Top Row)
 -  Avg Elements Owned: X.X
 -  Active Collectors: N
 -  Avg Collection Completion: XX%
 -  Most Popular Pattern: [Family + Form + Size]
-  Most Popular Collection Paths (Bar Chart)
 -  Shows top 10 patterns collectors follow
-  Set Completion Rates Table
 -  Set Name
 -  Total Collectors Pursuing
 -  Avg Completion %
 -  Est. Time to Complete
-  Drop-Off Points Table
 -  Element Name + SKU
 -  "Stall Point" (collectors who stop here)
 -  Avg time before stalling
 -  Potential blockers (price, availability)
-  Top Aspirational Items Table
 -  SKU
 -  Times Wishlisted (Aspirational context)
 -  Avg Collection Size When Wishlisted
 -  "Dream item" indicator
-  Date Range Selector
 -  Last 30 days / 90 days / 1 year / All time

Navigation Patterns & UX Flow

Primary User Journeys

Journey 1: New Collector Onboarding

1. /auth/signup  Account creation
2. /collection (first **load**)  Onboarding modal
 -  "What format are you collecting?"
 -  "Set your first goal"
3. /collection  See empty periodic table
4. /shop  Browse **and** add first item to cart
5. Return to /collection  See first owned element
6. /element-notes/:sku  Add notes about first element

Journey 2: Active Collector Routine

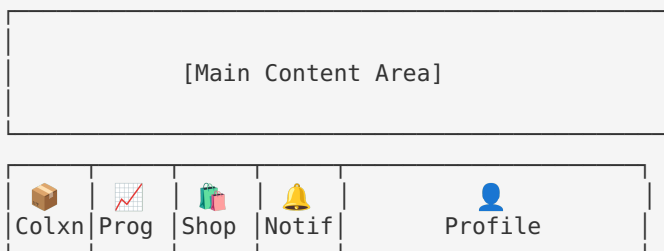

1. /collection → Check owned items, see progress
2. /notifications → Check for restock alerts
→ Click notification → /shop?sku=XXX
3. /shop → Add restocked item to cart
4. /wishlist → Review and update wishlist
5. /progress → See milestone progress
6. /membership → Review next subscription shipment

Journey 3: Admin Daily Operations

1. /admin → Dashboard overview, check critical alerts
2. /admin/sync-integrity → Address any sync issues
3. /admin/demand-signals → Review most painful missing items
4. /admin/restock-control → Trigger notifications for restocked SKUs
5. /admin/insights → Review collector behavior trends

Mobile Navigation Adaptations

Bottom Navigation Bar (Mobile)

- **Collection** (📦) - Primary tab (default)
- **Progress** (📈) - Milestones
- **Shop** (🛒) - Browse products
- **Notifications** (🔔) - Phase 2, shows unread badge
- **Profile** (👤) - Settings + Membership

Wishlist and **Element Notes** open as full-screen overlays on mobile.

Desktop Navigation

- Top horizontal tabs for main sections
- Sidebar for admin routes
- Right-side drawer for element notes
- Notification center as dropdown or dedicated page

 State Management & URL Patterns

URL Query Parameters for Filtering

Route	Query Params	Example
/collection	?form=10mm&filter=missing	Show missing 10mm items
/shop	?family=alkali&form=cube&show=missing	Filtered shop view
/wishlist	?context=aspirational&sort=priority	Filtered wishlist
/notifications	?type=completion&status=unread	Filtered notifications
/admin/demand-signals	?range=30d&sort=blocks	Date-filtered demand signals

Deep Linking Support

Direct Links:

- /collection?element=Au → Opens gold element detail
- /element-notes/SKU-123 → Opens notes drawer for SKU
- /shop?sku=LC-AU-10MM → Direct to product page
- /wishlist?context=core → Filtered wishlist view
- /notifications?id=notif-123 → Specific notification

 Progressive Enhancement Strategy

Phase 1 Routes (Deployed)

✓ Collection, Progress, Shop, Membership, Profile

Phase 2A Routes (First Release)

 Notifications Center, Element Notes, Enhanced Wishlist

Phase 2B Routes (Admin Release)

 Admin Dashboard, SKU Mapping, Collection Sets, Sync Integrity

Phase 2C Routes (Analytics Release)

 Demand Signals, Restock Control, Collector Insights

Implementation Notes

Route Protection Middleware

```
// Protect customer routes
if (!user.authenticated) redirect('/auth/login')

// Protect admin routes
if (!user.hasRole('admin')) return 403
```

Navigation State Persistence

- Last active tab saved in localStorage
- Filter preferences persisted per route
- Notification read states synced to DB

Performance Considerations

- Lazy load admin panels (not in customer bundle)
- Infinite scroll for notification center
- Debounced search on SKU mapping panel
- Cached demand signals (refresh on restock events)

End of Sitemap Documentation

Version: Phase 2 Complete

Last Updated: May 2026
